

TouchCenter Graphic Keypad Family

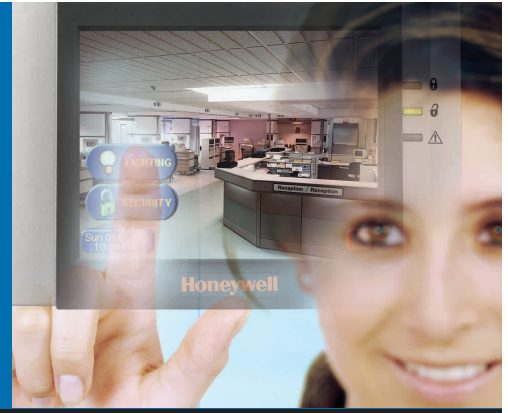

CUSTOMIZABLE TOUCHSCREEN KEYPADS
FOR YOUR BUSINESS

In Touch With Your Lifestyle

Honeywell

Your One-Touch Security Solution

Honeywell's state-of-the-art TouchCenter Keypads make security system operation simpler than ever—with graphics and menu-driven prompts guiding you and your employees every step of the way. There's a touchscreen to suit any business environment—including a choice of stylish silver, black or white models. You can display system status in a choice of three languages or even customize it with a photo of your facility. No other keypad can touch it!

Sleek, Stylish Design

A choice of three cutting-edge designs for any business interior

- **Silver:** Perfect for commercial kitchens, warehouses, garages, industrial settings and more
- **Black:** Ideal for conference rooms, lobbies, offices and more
- **White:** Popular, classic choice that looks great in any setting

Choice of Three Languages

Our language option enables the system to display system status in a choice of English, Spanish or French Canadian. This is great for bilingual corporate environments or where non-English speaking users or workers may be using the system.

Customize it!

TouchCenter allows you to customize the keypad homescreen with a company photo and name.

Security Made Simple

Whether arming or disarming the system, bypassing zones or controlling lights, TouchCenter makes operation crystal clear, with no complicated commands to remember or blinking lights to interpret. Menu-driven prompts reduce employee training time.

Convenient Control

TouchCenter provides centralized fingertip control for lighting, appliances, garage doors and more.

Event Log

A press on the touchscreen is all it takes to access the event log, which lets you keep tabs on family members, track when workers and temporary guests use the system and view when the system was used.

Convenience, Comfort and Control

For the ultimate in simplicity, comfort and control, count on Honeywell's TouchCenter. The intelligent design lets you add real security to your business and enjoy a level of convenience you won't find anywhere else! Ask your security professional for details today.
